

Forest Lighter Announces Result of Planting Trees in the Second Quarter of 2023

Introduction

Forest Lighter is a manufacturer of eco wood wool and eco firelighters, and as part of its resource strategy, it has been actively involved in reforestation efforts since 2016.

The company's commitment to sustainability and reforestation is an essential part of its identity, and it has been actively pursuing this goal in various ways.

This report summarizes Forest Lighter's efforts in planting trees and contributing to reforestation in Slovakia and Czechia.

Scope

Forest Lighter has been involved in reforestation efforts with a particular focus on areas that have been damaged by human logging, flooding, thunderstorms, and tree beetles.

The following chart shows the total number of trees planted in Slovakia and Czechia (we will plant trees there in Autumn).

- 30 trees in 2017 („Bielovodska Dolina, Slovakia“)
- 36 trees in 2018 („Stary Smokovec, Slovakia“)
- 46 trees in 2019 („Topolčianky, Slovakia“)
- 80 trees in 2020 („Tri Studnicky, Slovakia“)
- 267 trees in 2021 (Tri Studnicky, Slovakia)
- 350 trees in 2022 („Nová Baňa, Slovakia“)
- 500 trees in 2023 („Žiarska Dolina, Slovakia“)

In total, the company has planted 1,309 trees so far.

Collaborations

As every year, the company worked with the non-profit organization „Make a Home“ and the government institution „TANAP“ to plant trees in Žiarska Dolina, Slovakia. Forest Lighter has also teamed up with a new company called "Home For Trees" to plant trees in the Czech Republic. The tree planting activities with this new partner will take place in the autumn season.

Places, where the previous planting happened, will be regularly monitored and knowledge used for the next phases of planting.

Message to business partners and customers
Forest Lighter's message is to plant more trees and lower carbon emissions. By reducing carbon emissions and supporting reforestation efforts, we can all play a part in protecting our planet for future generations.
