

Forest Lighter Announces Result of Planting Trees in the First Quarter of 2024

Introduction

Forest Lighter is a manufacturer of eco wood wool and eco firelighters, and as part of its resource strategy, it has been actively involved in reforestation efforts since 2016.

The company's commitment to sustainability and reforestation is an essential part of its identity, and it has been actively pursuing this goal in various ways.

This report summarizes Forest Lighter's efforts in planting trees and contributing to reforestation in Slovakia and Czechia.

Scope

Forest Lighter has been involved in reforestation efforts with a particular focus on areas that have been damaged by human logging, flooding, thunderstorms, and tree beetles.

The following chart shows the total number of trees planted in Slovakia and Czechia:

Locations

- 30 trees in 2017
"Bielovodska Dolina", Slovakia
- 36 trees in 2018
"Starý Smokovec", Slovakia
- 46 trees in 2019
"Topolčianky", Slovakia
- 80 trees in 2020
"Tri Studničky", Slovakia
- 267 trees in 2021
"Tri Studničky", Slovakia
- 350 trees in 2022
"Nová Baňa", Slovakia
- 500 trees in 2023 (spring)
"Žiarska Dolina", Slovakia
- 1,200 trees in 2023 (autumn)
"Předklášteří", Czechia
- 350 trees in 2024 (spring)
"Mladá Vožice", Czechia

In total, the company has planted 2,859 trees so far.

Collaborations

In the past, Forest Lighter has worked with the non-profit organizations "Make a Home" and the state institution "TANAP" to plant trees in Slovakia. This year, Forest Lighter has teamed up with the Czech non-profit organisation "Home For Trees" to plant trees together in the Czech Republic, as it is from Czech woods that Forest Lighter products come. Tree planting activities with this new partner started from autumn 2023 and will take place twice a year. Forest Lighter will continue to support tree planting in the Czech Republic and Slovakia with existing partners: Make Home and Home for Trees.

Message

Message to business partners and customers
Forest Lighter's message is to plant more trees and lower carbon emissions. By reducing carbon emissions and supporting reforestation efforts, we can all play a part in protecting our planet for future generations.
